

LORDS SELL THINGS

NOBILITY MARKET HAS SUFFERED A SEVERE SLUMP.

My Lord is in Many Cases Reduced to the Bare Necessity of Opening Shop and Earning His Living Like Any Other Man—Dick Croker's Much-Paraded Intimacy With Wales is Irrevocably Damned—Fortune Hunters in Difficulties—Dear Bread in France—Canada's Trade—Kangaroos For the Klondike

London, Oct. 23.—During a number of years past many members of the British nobility have opened shops in London and have been selling anything from bonnets to milk and potatoes. The latest addition to the list has just blossomed out in an advertisement inserted in a leading church paper, in which the enterprising nobleman says: "A lord will supply, post free, chickens at 3s 9d, ducks at 6d, rabbits at 2s 2d per pair, turkeys from 5s and geese from 4s 6d, for the table."

HORSE LAUGH FOR CROKER.

The Greater New York election amendments are followed here with considerable interest, especially the presentation of Mr. Richard Croker as a crony of the Prince of Wales.

The London Figaro on the subject says:

"The impudence of the New York politician is laughable to those who know the extent of the Prince of Wales' acquaintance with Tammany chief. When Croker brought his race horses he was introduced to Wales in the character of a great supporter of the turf. Immediately, however, the running of the American horses fell under suspicion and Croker was dropped from the royal circle like a hot potato. As it was, Croker never progressed further in intimacy with the Prince of Wales than on one occasion to offer him a light for his cigar."

NOT NEAR ALL DEAD YET.

There has been one more case of a fool of foolish persons in the United States who were made to believe fairy tales of the wealth awaiting heirs in England. Mrs. Nolan and Mrs. Rafferty of 247 East Seventeenth street, New York City, arrived here a fortnight ago and called at the office of Mr. Charles Russell, son of the Lord Chief Justice, saying they wanted to collect \$400,000 belonging to the late Lord Chief Justice O'Connell estate, adding that they wanted the money the same week so as to be able to return to New York on the steamer which brought them here. Mr. Russell examined the documents, which showed no evidence of being of the slightest value, at the same time informing his visitors that no such sum was unclaimed in chancery. The two women having spent all their money on the voyage from New York to England, Mr. Russell paid their passage back to the United States and they sailed for home Wednesday.

A KIC KON DEAR BREAD.

Paris, Oct. 23.—In the chamber of deputies today M. Gerault-Ricaud, socialist, raised a discussion on the price of bread. He said the increase of price was due to "shameless speculators" and that only the big agriculturalists profited by it. Continuing, the deputy charged the government with having a "famine ministry." This caused violent protests from the supporters of the government.

Another deputy, M. Folleville, asked that the proceeds of the customs duty on wheat be employed to bring about a reduction in the price of bread. Further, M. Folleville demanded that the government take immediate measures against monopolies.

Later the chamber of deputies by a vote of 385 to 72, expressed confidence in the government.

CANADA'S TRADE.

Washington, Oct. 23.—Consul General Turner, at Ottawa, in a report to the state department, says that Canada has been suffering from business depression but during the past few months revival has set in. He adds: "The energies of public men of Canada are at present directed toward fostering trade with England, on which it would seem that the system of preferential duties lately adopted and the denunciation of the favored nation treaties by England would have an apparent effect. The experiment has not so far been a decided success, as imports from England have fallen off Canada buys more from the United States than from any other country."

LANDSLIDES IN ITALY.

Rome, Oct. 23.—A telegram from Ancona, on the Adriatic, announces that severe floods have caused several landslides, interrupting railroad communication, and for the time cutting off the port from telegraphic communication. Clouds Richetti was swept away by the floods and drowned. Since this message was sent the telegraph lines have again broken.

EXODUS OF KANGAROOS.

San Francisco, Oct. 23.—Australia will add its share of gold hunters to the Klondike region next year. When the Alameda sailed from Sydney the office

A PECULIAR REMEDY.

Something About the New Discovery For Curing Dyspepsia.

The Rev. F. J. Bell, a highly esteemed minister residing in Nevada, Cayuga, N. Y., in a recent letter writes as follows: "There has never been anything that I have taken that has relieved the dyspepsia from which I have suffered for ten years except the new remedy called Stuart's Dyspepsia Tablets. Since taking them I have had no distress at all after eating and again after long years CAN SLEEP WELL. Rev. F. J. Bell, Nevada, N. Y., formerly Idaho, Colo."

Stuart's Dyspepsia Tablets is a remarkable remedy, not only because it is a certain cure for all forms of indigestion, but because it seems to act as thoroughly in old chronic cases of dyspepsia as well as in mild attacks of indigestion or biliousness. A person has dyspepsia simply because the stomach is overworked, and it wants a harmless, vegetable remedy to digest the food and thus give it the much needed rest.

This is the secret of the success of this peculiar remedy. No matter how weak or how much disordered the digestion may be, Stuart's Dyspepsia Tablets will digest the food whether the stomach works or not. New life and energy is given not only to the stomach but to every organ and nerve in the body. A trial of this splendid medicine will convince the most skeptical that dyspepsia and all stomach troubles can be cured. The tablets are prepared by the Stuart Chemical Co., of Marshall, Mich., but so popular has the remedy become that Stuart's Dyspepsia Tablets can now be obtained at any drug store at 50 cents per package. Send for book on stomach diseases free.

Thousands of men and women afflicted with some sort of piles, without either knowing the exact nature of the trouble, or knowing it, are careless enough to allow it to run without taking the simple means offered for a radical cure.

The failure of salves and ointments to permanently cure piles has led many to believe the only cure to be a surgical operation.

Surgical operations are dangerous to life and moreover not often entirely successful, and at this time is no longer used by the best physicians or recommended by them.

The safest and surest way to cure any case of piles, whether blind, bleeding or protruding, is to use the Pyramid Pile cure, composed of healing vegetable oils, and absolutely free from mineral poisons and opiates. The following letter from a Pittsburg gentleman, a severe sufferer from bleeding piles, gives some idea of the prompt, effectual character of this pile cure. He writes:

"I take pleasure writing these few lines to let you know that I did not sleep for three months except for a short time each night because of a bad case of bleeding piles. I was down in bed and the doctors did me no good. A good brother told me of the Pyramid Pile cure and I bought from my druggist three fifty-cent boxes. They cured me and I will soon be able to go to my work again."

WILLIAM HANDSCHU, 46 St. Cotton Alley, below Hunter St., Pittsburg, Pa.

The Pyramid Pile cure is not only the safest and surest remedy for piles, but is the best known and most popular. Every physician and druggist in the country knows it and what it will do. Send for little book on cause and cure of piles, describing all forms of piles and the proper treatment.

The Pyramid can be found at all drug stores at 50 cents per package.
